DETAILED ACTION

Acknowledgement of Request for Continued Examination

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 29 June 2006 has been entered.

Allowable Subject Matter

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record fails to teach or reasonably suggest an organic light-emitting display, including: a plurality of power line sets isolated from each other, wherein each power line set is coupled to a plurality of secondary power lines; and a plurality of voltage terminals, wherein each voltage terminal is coupled to a middle region of a corresponding one of the power line sets, and the voltage terminals are coupled to a power supply, wherein the corresponding one of the power line sets has two end regions on both sides of the middle region and the two end regions are larger than the middle region, wherein an electric current resulting from a voltage applied to each power line set passes through the secondary power lines into a plurality of corresponding pixels in the organic light-emitting display.

Claims 2-6 are allowed for the reasons given for claim 1, and for depending from claim 1.

As to claim 7, the prior art of record fails to teach or reasonably suggest an organic light-emitting display, comprising: a plurality of power line sets isolated from one another, wherein each power line set is coupled to a plurality of secondary power lines; and a plurality of voltage terminals, wherein each voltage terminal is coupled to a power line set, and the voltage terminals are coupled through a conductive material medium to a power supply; wherein an electric current resulting from a voltage applied to each power line passes through the secondary power lines into a plurality of corresponding pixels in the organic light-emitting display.

Claims 8-14 are allowable for the reasons given for claim 7, and for depending from claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
